

Winter Service Special

2010 - 2011

To our customers...

As another harvest season comes to an end, we are once again thankful for your business and diligence in the agriculture industry. After over 100 years of business, we continue to work toward being the best John Deere dealership in our trade area and truly appreciate your support toward this effort.

To help keep you going until the end of harvest and prepare you for the new growing season, the enclosed information has been designed with you in mind. Our 2010 – 2011 Winter Service Special offers combine and tractor inspection deals, preventative maintenance products, ways to earn back money and much more!

To keep your operation in top running condition, contact one of our four locations to plan your equipment's winter special needs.

Harvest 2010

The **N**obbe Difference!

JOHN DEERE

Nobbe Loyalty Program

All Farm Plan Preferred account customers can earn 2% back on every \$1,000 spent November thru February and 1% back on every \$1,000 spent March thru October, using your Farm Plan account. You will receive award certificates redeemable for merchandise, parts or service at any of our locations.

Farm Plan Savings Programs (for all inspections)

Fall/Winter November 1st to March 31st

Option #1

5% parts, 5% labor
On regular Farm Plan accounts

Option #2

No Payment, No Interest
Until October 1st, 2011
With minimum \$1,000 purchase
(no parts and labor discount)

Combine Inspections

Option #1

PERFORMAX Basic Inspection\$150

Option #2

NCI/PERFORMAX Plus\$350

Advantages of NCI/PERFORMAX Plus

- ✦ Oil scans on engine oil, antifreeze, both hydraulic reservoirs and engine gear case.
- ✦ Gearboxes are drained and checked for metal.
- ✦ Hydro pressure is checked and set to specifications.
- ✦ Coolant system is pressure tested for leaks.
- ✦ Antifreeze is tested for molybdate and nitrate level.
- ✦ Feeder house is removed to efficiently check internal components.

Benefits of NCI/PERFORMAX Plus

- ✦ Free travel charges for 1 year on repairs we do.
- ✦ 1 full year warranty on parts and labor on JD parts we install at inspection.
- ✦ Same parts and labor discounts for 1 year on any additional repairs on the inspected machine.
- ✦ Free Basic follow-up inspection after next harvest.

Requirements of NCI/PERFORMAX Plus

- ✦ **Must have all major repairs performed to qualify.**
- ✦ **Needs to be in an adequate facility to perform inspection.**

Eliminate downtime ~ prepare for next harvest!

Combine Parts Specials

Get ready for Wheat with a Small Wire Concave

Are you looking for a clean wheat sample? All you need is the small wire concaves! In small grain the small wire concaves are best for providing a super clean sample. The regular concaves tend to leave more debris in the tank. Concaves can be easily swapped, prices below include labor to install them the first time.

Call for more information.

Prices include Concave Kit (3 concaves and hardware) and labor.

9560STS – 9570STS Combines \$3,300

96-97-9860STS – 96-97-9870STS Combines \$3,450

Unloading Auger Extension

This will add three feet to your auger! If you are having troubles reaching your trucks or grain carts, this unloading auger extension is needed. This is on all new combines and can be added to all 9000 series without the extension.

Gearbox Hose Kit

To avoid failure of your cornhead and downtime during harvest, gearboxes need greased on a regular basis.

6 Row Head \$350 8 Row Head \$440 12 Row Head \$625

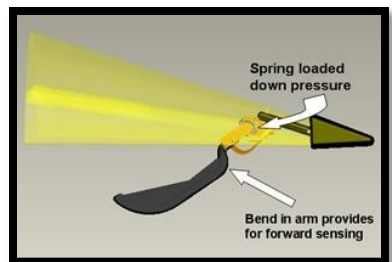

Corn Head Height Sensing from Headsight

To get better return on your corn crop, install a Headsight Height Sensor. This will follow the ground just like your platform.

Prices include kit and installation!

6 Row Head \$1,975

8 Row Head \$2,075

Tractor Inspections

Option #1

PERFORMAX Basic Inspection\$150

Option #2

NCI/PERFORMAX *Plus*\$225

Advantages of NCI/PERFORMAX Plus

- ✦ All fluids and hydraulic sump screen is checked for any debris, if applicable.
- ✦ Electrical system is checked and codes pulled.

Benefits of NCI/PERFORMAX Plus

- ✦ Free travel charges for 1 year on repairs we do.
- ✦ One year warranty on parts and labor on JD parts we install at inspection.
- ✦ Same parts and labor discounts for 1 year on any additional repairs on inspected machine.

Requirements of NCI/PERFORMAX Plus

- ✦ **Must have 90% of repairs performed to qualify, excluding maintenance items.**

Multi – Unit Discount

Save more by having all your tractors inspected!

Basic Inspection - \$50 off each additional tractor.
NCI/PERFORMAX Plus Inspection - \$50 off each additional tractor.

Extending the Life of Your Machine

Along with yearly inspections of your equipment, examining internal components is another crucial aspect of extending the life and dependability of each machine.

The life cycle of all internal components is affected by the conditions the machine is operated in, the way it is operated and how it is maintained. We can monitor these components by oil scans on a regular basis and inspecting filters inside and out. Recommendations will also be given for rebuilding or replacing certain items on our inspection based on past experiences with like machines.

The suggested lifecycle listed below was derived from failures on equipment like yours, because of improper care and operating procedures. This does not ensure components on your machines will not vary, however this is a good guideline to base your service schedule off of.

✓ Gear Driven Water Pumps	2,500 – 3,000 hours
✓ Engine Rod and Main Bearings	4,000 – 5,000 hours
✓ Harmonic Balancers (listed in manual)	4,000 – 4,500 hours
✓ 4WD Couplers (listed in manual)	4,500 hours
✓ Air Conditioning System	8 – 10 years for hoses
✓ Gear Boxes on Combine	Varies on specific conditions and service performed

Air Conditioning Retrofits

Switch over to R134a today!
Upgrade your 30-40 series to the new Denso R134a compressor for reliability.

Example: 4440 \$2,350
4450 \$2,450

Fender Mount Warning Lights

\$650 installed

7-pin Warning Light Connector

\$165 installed

Extend the life of your engine!
Recommended every 4,500 hours. Example: 4440 \$1,450

Upholstery Kits

Keep your field office in top shape!
30-40 Series (RC) ...\$1,060
50 Series (RC)\$1,095
55 Series (RC)\$1,195
60 Series (RC)\$1,195
30 Series (4WD)\$800
40 Series (4WD)\$940
50 Series (4WD)\$1,245
60 Series (4WD)\$1,455

Diesel Fuel Conditioners

John Deere offers conditioners specifically designed to enhance the operation of engines using biodiesel and ultra low sulfur diesel fuel. All products listed below can be used in most makes of equipment.

Fuel Protect Summer (1oz:13 gal diesel) TY26784 16oz, TY26785 1 gallon, TY26786 5 gallon

- See benefits of Fuel Protect Winter

Fuel Protect Winter (1oz:4 gal diesel) TY26787 16oz, TY26788 1 gallon, TY26789 5 gallon

- Cetane Boost – faster, smoother, fuel efficient starting with less smoke
- Aggressive Detergents – cleans and keeps clean injectors
- Lubricity Improver – protection designed for ULSD fuels
- Moisture Control – increase filter life and helps minimize microbial growth

Fuel Protect Keep Clean TY26827 32oz, TY26828 1 gallon, TY26829 5 gallon, TY26830 55 gallon

- Recommended for diesel engines in the following primary situations:
 - have been successfully treated with a fuel system flush procedure using John Deere Clean-up (see service details below)
 - new diesel engines beginning with the initial fuel fill to prevent deposits from forming in the injection systems
 - diesel engines displaying the symptoms of injector sticking, engine misfires, rough idling, excess exhaust smoking, power loss and/or hard starting conditions in modern high-pressure diesel fuel systems

Maintenance rate 1oz.:10 gal of diesel

Cleaning rate 1oz:5 gal of diesel (engines with deposit related issues)

(will take 40 to 80 hours of running to clean deposits in injectors)

Fuel Saver PM49614

- Safeguards biodiesel fuels by providing the following benefits:
 - provides excellent bactericidal and fungicidal efficacy
 - works effectively in both fuel and water
 - leaves no corrosive deposits when burned in fuel
 - reduces engine maintenance costs
 - helps prevent fuel system failures
 - meets ultra low sulfur diesel (ULSD) guidelines with ≤ 15 ppm sulfur content

Fuel Protect Gasoline TY27534 8oz, TY27535 32oz

- Ethanol corrosion preventer, stabilizer and carburetor/injector cleaner

Fuel System Flush \$375 plus filters

To rid your engines of harmful deposits in your fuel systems, have our service department perform a fuel system flush. Modern diesel engines run on higher injections, pressures and tighter tolerances. Fuel and biofuel blends tend to cause buildup that can slow you down.

Monthly Parts Specials

November

- Toy Sale 15th – 20th
- Order Net Wrap for the best savings all year

December

- Discount Week 13th – 18th
- Filter Sale for entire month
